Dear Colleagues:

We are pleased to attach the electronic trademark registration certificate for U.S. Trademark/Service Mark Registration No. 8,119,059 for “DUNGEON STALKERS (logo)” in International Classes 9 and 41. The USPTO no longer issues courtesy copies of paper registration certificates. A formal “printed” version of the registration certificate is available from the USPTO for a fee.

The certificate of registration is prima facie evidence of the registrant’s exclusive rights to use the mark in commerce in connection with the identified goods/services in the United States. The company may now use the registration symbol ® to indicate DUNGEON STALKERS (logo) is a federally registered trademark/service mark. Using the registration symbol may allow the registrant to recover profits and damages, in the event of infringement, without having to prove the infringer knew the mark was registered.

The initial term of the registration is ten (10) years from the registration date, and the registration may be renewed, if the mark is still being used, for successive ten-year periods, by application within the year before the expiration date. However, the registration may be cancelled by the U.S. Patent and Trademark Office (USPTO) at the end of six years following the registration date unless a declaration showing continued use or excusable non-use is filed. If there has been five years of continuous use of the mark after the date of the registration, and other necessary conditions are met, steps may be taken toward making the registration incontestable.

Registration Date: January 27, 2026
Declaration of Use/Non-use Due Date: January 27, 2032
Renewal Due Date: January 27, 2036

We have docketed these dates on our docketing system so that we may contact you for further instructions as the dates approach. Please keep in mind that it is your responsibility to keep us informed of address changes so that we may contact you for instructions.

The registrant may receive solicitations for payments regarding your trademark registration from entities such as “United States Trademark Protection Agency.” These entities and notices are not affiliated with the USPTO. If the registrant receives such a solicitation and has any questions as to whether action is necessary, please contact us.

Please let us know if you are interested in a watch service for potentially conflicting marks filed by third parties. In addition, please notify us of any conflicting trademark uses which come to your attention.

Our final invoice for this matter is attached as well as one outstanding invoice for this matter.

Best Regards,
